Subcategory: Pendent Lamp
Family Name: LC Profile

Pendent Profile

Aluminum | PMMA diffuser

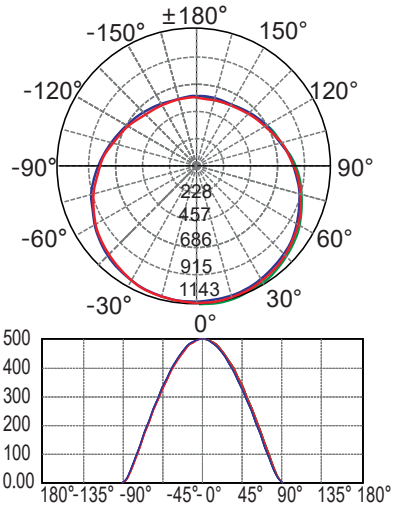

Technical Description

The sky series linear droplight/absorb dome light is contracted type LED lamps and lanterns, uses the high quality aluminum alloy type material the lamp body, no screw die casting aluminum end cover, appearance size proportion of scientific, reasonable structure, convenient and flexible installation and maintenance.Direct + indirect illumination lighting concept, using anti-dazzle lampshade light, high light transmittance scattered cover type PMMA astigmatism development according to the LED light wavelength. Advanced thermal management technology, excellent heat dissipation, ensure the sustainability of lamps and lanterns is maximum light output and the consistency of color temperature.
Application places: office buildings, schools, hospitals, shopping malls, hotels, high-grade supermarket Such as public buildings. An acrylic cover plate can be unlimited extension.
